Select a customer and exit

The screenshot shows a software interface for managing company information. The 'Company' tab is selected, and the 'New Company' option is highlighted in the dropdown menu. The table below the search bar lists two customers: Liu (first_name, last_name) and Donald Zhang (first_name, last_name). The 'Exit' button is located at the bottom of the window.

Inventory

New inventory

The image shows a software window titled 'Add inventory' with a standard Windows title bar (minimize, maximize, close buttons). The window contains a form for adding new inventory items. The form fields are as follows:

- category:** A text field containing the path 'root\Clock\Electronic\'. A blue arrow points from the label 'category' to this field.
- sku:** A text field containing the value '#00059'. A blue arrow points from the label 'sku' to this field. Another blue arrow points from the text 'Sku automatically created' to this field.
- Unit:** A dropdown menu currently showing 'pcs'.
- Description:** A text field containing the text 'Washing machine'.
- qty:** A text field containing the value '0'.
- price:** A text field containing the value '0.0'.

At the bottom of the form are two buttons: 'Save' and 'Cancel'.

Management

If you have existed customers.
Import into our database.

The screenshot shows a window titled "frm_manage" with a close button (X) in the top right corner. Below the title bar, there are two tabs: "Users" and "Manager", with "Manager" being the active tab. The main content area is divided into three sections, each with a title and two buttons:

- Backup/Restore**: Contains "Backup Database" and "Restore Database" buttons.
- Import Inventory**: Contains "Existed Inventory File" and "Import Inventory" buttons.
- Import Vender/Customer**: Contains "Existed Customer File" and "Import Customers" buttons.

A blue arrow points from the text "If you have existed inventories, Import into our database" to the "Import Customers" button in the "Import Vender/Customer" section.

If you have existed inventories,
